

Jupyter Notebook Exercise

September 9, 2021

1 My Jupyter Notebook in IBM Watson Studio

Jyotsana Manglani Data Scientist

I love data science because I love to gain insights from data

1.0.1 Calculating sum of 'n' numbers

```
In [ ]: def sumOfNumbers(int n):  
        res=0  
        for i in range(1,n+1):  
            res+=i
```

- first item
- second item
- third item
- Strikethrough
- Strikethrough
