Jupyter Notebook Exercise

September 9, 2021

1 My Jupyter Notebook in IBM Watson Studio

Jyotsana Manglani Data Scientist

I love data science because I love to gain insights from data

1.0.1 Calculating sum of 'n' numbers

```
In [4]: def sumOfNumbers(n):
            res=0
            for i in range(1,n+1):
                res+=i
            print(res)

        sumOfNumbers(5)
```
